“WHERE ROSES REIGN...NEW TRADITIONS BLOOM”

DIVISION I – HORTICULTURE RULES AND REGULATIONS

1. EXHIBITORS

All entries must have been grown outdoors in the exhibitor’s garden and entered in the show by the exhibitor. No garden may be represented by more than one exhibitor. If desired, a couple may exhibit as a team. If the team option is elected, the individuals may not exhibit separately. Each person becoming an exhibitor agrees to conform to the rules and regulations governing the show.

2. RESTRICTED CLASSES

Only in Section N, O and X is competition restricted. Restrictions are listed in these sections. Competition in all other Sections is open to all exhibitors.

3. ENTRIES

Entries will be accepted **only between 7:00 a.m. and 10:00 a.m. on Friday, April 22, 2022**. All rose varieties will be arranged alphabetically within a class. Entry tags must be completed to include Section, Class, Variety and Exhibitor’s Name and Address. All entries must be exhibited by the (AEN) American Exhibition Name, which will be to the extent possible, the name under which the rose is available or otherwise generally known in the United States. Exhibitors are asked to write entry tags in pencil. Printed address labels may be used.

The Show Committee will provide uniform containers. Exhibitors should use these containers unless specified otherwise in the schedule. English Boxes, Double English Boxes, Miniature English Boxes, Painter’s Palettes, Miniature Painter’s Palettes, Brandy Snifters, Miniature Brandy Snifters, Frames and Miniature Frames will be available on a first come basis. An exhibitor may make as many entries as desired provided each entry is a different variety except in Classes that are restricted to one entry per exhibitor. Only roses that are described in the online Modern Roses data base which is the most up to date ARS publication and takes precedence over all other publications, the latest editions of Modern Roses, Official List of Approved Exhibition Names for Exhibitors and Judges, Handbook for Selecting Roses and recent Rose Registrations on the ARS website may be entered in competition. In cases where a variety is not listed in any of the above ARS official publications, the Combined Rose List (CRL) may be used as a reference. If differences exist between the CRL and ARS publications, the ARS publication will prevail.

Stem length and foliage should bear a pleasing relation to the size of the bloom. One bloom per stem specimens that contain side buds may be penalized if the side buds are distracting. Other specimens should be shown naturally grown or may be disbudded. An exhibitor may remove unwanted growth subject to penalization. Climbing specimens that have a bush counterpart must be exhibited in the appropriate classes for their bush counterparts. All spray specimens must have two or more blooms, exhibited at exhibition stage or most perfect stage of beauty according to variety and may include additional buds and blooms in all stages or in same stage of development.

The use of a wedge to position a specimen in the container is permitted. The wedge should not extend above the top of the container. Stems should be inserted a **minimum of three (3) inches** into the container with the **exception** of miniatures and minifloras. The classification committee may refuse to accept any entry which is not of show quality.

Entries may be disqualified for the following reasons:

1. A foreign substance that has been applied to enhance the beauty of the entry.
2. Misnamed. Rose is not the variety given on the entry tag or an accepted synonym of the variety listed on the entry tag.
3. Unlabeled or Mislabeled. Entry lacks an entry tag or the exhibitor's name, the class number and/or the name of the variety is not given on the entry tag.
4. Exhibitor's name visible, if not corrected before the entry is judged.
5. An entry that was not grown outdoors.
6. An entry that was not grown by the exhibitor.
7. Violations of show rules, specifically:
 - a. A challenge class or collection entry that does not satisfy the composition and staging requirements of the class in which it is entered.
 - b. An entry in a class with restricted eligibility that the exhibitor is not eligible to enter.
 - c. When expressly prohibited by the show rules, entries made in the name of an absent exhibitor.
 - d. Unless expressly permitted by the show rules, separate entries from the same garden by two or more exhibitors.
 - e. Unless expressly permitted by the show rules, multiple entries of the same variety by the same exhibitor in the same class.

Disqualified exhibits receive no awards.

All roses entered in the show become the property of the Show Committee. Wilted roses will be removed from the show tables. Entries will be presented to the Classification Committee. Exhibitors may not withdraw entries that have been accepted by the Classification Committee. An entry may not violate ARS rules or local society rules applying to this show. Separate entries from the same garden by two or more exhibitors is not allowed (except in the Judges' class). Two entries of the same variety by the same exhibitor in the same class is not allowed. Exhibitors place entries in the challenge classes. The Placement Committee places all other entries on show tables and may move Challenge Class entries if necessary. Exhibitors should recheck placement of Challenge Class entries prior to judging.

CHARACTERISTICS OF DESIGNS

TRADITIONAL LINE

A line is dominant and must show movement in one direction. Design has height and width but very little depth except in focal area. Small amounts of plant materials are used.

TRADITIONAL LINE-MASS

Line is dominant with more plant material than a line design. It has height, width and depth. Usually shows gradual progression of bloom development. It may show gradation of color.

NATURAL OR NON-NATURALISTIC DESIGN IN LOW CONTAINER (EAST ASIAN STYLE)

Naturalistic-Using materials as they grow in nature.

Non-Naturalistic-abstract materials-using man made materials.

ABSTRACT DESIGN

Designs are purely compositions of space, texture, color and form and are not constructed around a central focal area. They may have several emergence points for plant material. Plant material can be altered, manipulated, and/or distorted and placed in a non-conventional manner. Abstraction is dominant and these designs must have two or more abstract qualities. The rose blooms should never be abstracted by distorting.

Free form designs are irregular designs with a curving outline. They are non-geometric and plant material is used in a naturalistic way. They may have more than one center of interest and more than one point of emergence.

IN THE ORIENTAL MANNER (EAST ASIAN STYLE) – LOW CONTAINER

Designs use a low container or compote with water showing. May be based on the asymmetrical, tri-dimensional triangle that symbolizes the universe. Three main lines: the tallest (Heaven) establishes the dimension of height, the next tallest (man) gives width, and the shortest (earth) gives depth. There is simplicity in construction and restraint in the use of plant material. One half to two thirds of bottom of the container or the water surface is free of plant material. Plant material should not touch the water surface or the lip of the container.

STANDARD INFORMAL EXHIBITION TABLE

An exhibition table is a totally non-practical artistic display of elements suggestive of serving a meal. Dishes may be stacked, suspended, placed on easels, etc. Napkins or other appointments may be grouped or presented in a creative way. Basic requirements are a dish for food, a vessel for drinking and a rose arrangement.

DUKE OF ARRANGEMENTS

Fresh roses of any classification type with or without other fresh and/or dried plant material. It is restricted to arrangements larger than 10 inches in height, width or depth as in or similar to miniature classes but must not exceed 20 inches in height, width or depth.
